

WMSC Seeking More Power

Radio Station WMSC today announced its application with the Federal Communications commission to increase its night-time broadcasting power from 500 to 1000 watts

WMSC now is authorized to broadcast with a power of 1000 watts during the day and 500 watts at night, using a directional antenna system

Wallace Martin, Grenville Scibels and John Cosby, co-owners of the station, jointly announced the application for increased power
